SUMMARY

Informatics Engineering graduate from Gunadarma University (GPA 3.57/4.00) and **BNSP-certified Junior Web Programmer**. Built web applications with Laravel, PHP, and MySQL, including a chatbot website with an admin dashboard for my thesis (Grade A) that reached **92%** user acceptance in UAT. Led a team of 5 as Project Manager to deliver a public service website for the Lenteng Agung Urban Village Office, which cut information access time by **30%** in testing and was officially handed over to the office. Currently interning with the Cloud team at Telkomsel and eager to grow as a web developer.

SKILLS

- **Front-End:** HTML, CSS, JavaScript, React.js (Vite), Bootstrap, Tailwind CSS, Responsive Design
- **Back-End & Database:** PHP, Laravel, REST API, MySQL, Python (Flask)
- **Tools:** Git, GitHub, Figma, VS Code, XAMPP, Huawei Cloud, Terraform
- **Languages:** Indonesian (native), English (intermediate)

WORK EXPERIENCE

Telkomsel | Cloud Team Intern — Jul 2026 - Present

- Building a daily resource scan for several Huawei Cloud accounts using FunctionGraph, with **read-only access** between accounts and no Access Keys.
- Tested permissions with Switch Role, ran Terraform tests to deploy FunctionGraph, and wrote architecture documents for my mentor.

PROJECTS

Chatbot for Academy Next Top Model Website — May 2026 - Aug 2026

Undergraduate Thesis | Gunadarma University | Grade: A

Tools & Technologies: Laravel, PHP, MySQL, Python (Flask), REST API [GitHub]

- Added a chatbot to a Laravel website that sends user questions to a Flask NLP service through a **REST API**, with **88.89%** intent accuracy on test data.
- Built an **admin dashboard** to add new questions and answers, then retrain the model in the background with a queue worker while the website keeps running normally.
- Got a usability score of **88.64/100** (Bot Usability Scale) and **92%** approval in UAT with 20 respondents.

Academy Next Top Model Website — May 2025 - Sep 2025

Academic Project | Gunadarma University | Grade: A

Tools & Technologies: Laravel, HTML, CSS, JavaScript, Figma [GitHub]

- Designed **10+ pages** in Figma, then built them as responsive Laravel pages: homepage, programs, gallery, and online registration form.

Lenteng Agung Urban Village Public Service Website — Oct 2025 - Jan 2026

Community Service Project | Project Manager | Grade: A

Tools & Technologies: React.js (Vite), Tailwind CSS, Supabase, Figma [Website] [Dashboard]

- Led a team of 5 (UI/UX designer, programmer, QA, and technical writer) to deliver a public service and complaint website with an AI chatbot and an admin dashboard.
- Planned the timeline, divided tasks, and tracked progress from requirements to handover.
- Helped design the UI/UX in Figma, including the menu and page structure. In system testing, information access time dropped by **30%** and **25+** complaints were sent online.
- Officially handed over to the Lenteng Agung Urban Village Office (BAST, Jan 2026) and received a Certificate of Appreciation.

EDUCATION

Gunadarma University, Depok | Bachelor of Informatics Engineering | **GPA 3.57/4.00** — Aug 2022 - Aug 2026

- Thesis: *NLP-Based Chatbot for Intent Detection on the Academy Next Top Model Website* (Grade: A)
- Scientific Paper (Sarjana Muda): *Design and Implementation of a Web-Based Portfolio Management Information System for Academy Next Top Model Using the Waterfall Approach* (Grade: A) [Certificate]
